KONTAKT 60/K VISION
GREEN LINE

The Kontakt 60/K Vision is an example of the combination of a modern beverage dispensing tower and cutting-edge cooling technology. This cooler has been designed with current trends in mind and its minimalist design together with the integrated LCD display creates the perfect backdrop for presenting your drinks.

<< CONTROL PANEL

The control panel is intuitive and allows for easy temperature adjustment, as well as control of the built-in air compressor for pressurising kegs.

< LCD PANEL

The 13.3" large display is the dominant feature of this cooler. It can project advertising, logos, photos and videos, attracting the attention of customers and helping to maximise the potential of each drink.

BENEFITS AND USEFUL FEATURES

LCD DISPLAY - The 13.3" large display is the dominant feature of this cooler. It can project advertising, logos, photos and videos, attracting the attention of customers and helping to maximise the potential of each drink.
COOLED TAP - Thanks to the function of after-cooling up to the tap, the drink is perfectly chilled from the first drop that hits the glass, making the cooler a suitable device for dispensing drinks even in small quantities.
OUTPUT - With an output of 60 l/h, it is not afraid of demanding operation.
SIMPLE OPERATION - The control panel is intuitive and elegant and allows for easy temperature adjustment, as well as control of the built-in air compressor.
BUILT-IN DRIP TRAY - The smart design with built-in drip tray allows for easy cleaning and servicing, which you will appreciate during regular maintenance.
AIR COMPRESSOR - Cooling includes a built-in air compressor with a particulate filter.
EASY TAP REPLACEMENT - Thanks to the use of 5/8" threads, changing taps has never been easier.
GREEN LINE – LINDR GREEN LINE technology is environmentally friendly thanks to the use of eco-friendly refrigerant R-290. Thanks to this design, each product achieves 20 % higher energy efficiency and 20 % lower energy consumption. We have introduced an energy saving system in the production.
